

Project Certification Manager

Do you want to be part of developing and manage certification in Taiwan and APAC?

Join us and become Project Certification Manager in the Project Certification Dept., where you together with your international colleagues in Europe will be responsible for delivering the certification activities for our Offshore Wind projects.

Your key tasks will be to

- To plan and coordinate certification activities for our Offshore Wind projects, and to support and drive procurement and assist execution.
- To support the projects from the development through the realization phase to the handover to the operating and maintenance organization in all certification topics.
- To be available to the organization as a subject matter expert in certification.
- Act as local representative for technical standard hearings and meetings with institutes and authorities. Report back to the organization with the results and provide translation and interpretation of the draft version.

Your competences include that you

- A master's degree or equivalent in an engineering discipline.
- Experience with wind turbines type certification or project certification of offshore wind farms.
- Ability to quickly familiarize yourselves with the most important certification schemes such as IEC RE and relevant local standards.
- Show enthusiasm for working in an international environment and have the ability to build good relationships with your stakeholders and position yourselves as an expert.
- Have good command of spoken and written English.

You should expect some travelling in relation to your work, including visiting Ørsted offices in Europe and attending meetings in both Europe and APAC .

Working at Ørsted

To be the frontrunner in the green energy transformation, we invest significantly in innovation and empower our employees to help shape the renewable energy technologies of the future. We cultivate a collaborative, dynamic and diverse work environment and encourage career-long learning and development so our people can realise their full potential.

Would you like to help shape the renewable technologies of the future?

Send your application to us as soon as possible and no later than 20-May-2019 We expect to conduct interviews during May and June 2019. Expected start date with Ørsted 1 August 2019, but we are willing to wait for the right candidate.

If you'd like to know more about the position Please don't hesitate to contact HR Manager Taipei, Jane Liu, by email on twrecruitment@orsted.com

Please note that for your application to be taken into consideration, you must submit your application in English via our online career pages.

About Ørsted

Headquartered in Denmark, Ørsted's 6,080 employees develop, construct and operate offshore wind farms, bioenergy plants and innovative waste-to-energy solutions and provide smart energy products to its customers. Ørsted Wind Power's 2,450 employees have developed and constructed the largest

portfolio of offshore wind farms in Northern Europe, and we're expanding with international activities in the US and Asia-Pacific.

In Taiwan, Ørsted develops and builds 1.8 GW of offshore wind projects and also storage solutions in Changhua; and co-owns Taiwan's first offshore wind project, Formosa 1.
