

Senior Project Planner for offshore wind projects

Do you want to be part of our international planning department for a world leader within renewable energy?

Join us and become Senior Project Planner in the Time & Resource Management department supporting our offshore wind farm projects with time management, resource planning and implementation of standardized processes together with competent colleagues. As Senior Project Planner, you'll support the project organization in developing, maintaining and analyzing time schedules and human resource plans in accordance with guidelines and processes.

You will be based at our office in Taipei City, Taiwan. However, you should expect some travelling in relation to your work, both domestically and to other parts of the Asia-Pacific region as well as to our offices in Europe.

Your key tasks will be to

- drive the time and human resource planning in our wind projects as well as control and maintain time schedules and perform schedule analysis
- carry out progress updates in terms of activities and resources and communicate and report progress, performance and forecasts on a regular basis
- ensure coordination and alignment between the project package schedules and key milestones
- review of contractor's time schedule and follow up on their progress
- use your skills and insights to support management decision making within the projects and ensure that best practice is documented and implemented.

Your competences include that you

- have a master's or bachelor's degree in engineering or an equivalent qualification
- have extensive experience with project planning and are able to draw on experience, knowledge and competences equivalent to PMI-SP (Scheduling Professional)
- have excellent communication skills, enabling you to present and communicate complex matters in a professional and straightforward way
- have a proactive and systematic approach to your work tasks and a good sense of details
- speak and write English fluently
- thrive in an international environment and are able to create good relationships with your stakeholders, some of which will be located in other countries.

You're an experienced user of the Primavera planning software (P6), although experience with other scheduling systems will also be considered. Moreover, you have extensive experience using the Microsoft Office suite, especially Excel and PowerPoint, and you have a flair for learning new IT systems. You know how to manage and prioritize your tasks and be able to work on several projects or issues simultaneously. In addition, having experience from the wind power industry will be an advantage.

Working at Ørsted

To be the frontrunner in the green energy transformation, we invest significantly in innovation and empower our employees to help shape the renewable energy technologies of the future. We cultivate a collaborative, dynamic and diverse work environment and encourage career-long learning and development so our people can realize their full potential.

Would you like to help shape the renewable technologies of the future?

Send your application to us as soon as possible and no later than 20 May 2019, as we'll be conducting interviews on a continuous basis.

Please don't hesitate to contact Ms. Jane Liu, HR Manager in Taiwan, by email to twrecruitment@orsted.com if you'd like to know more about the position. You should expect some travelling in relation to your work.

About Ørsted

Headquartered in Denmark, Ørsted's 6,080 employees develop, construct and operate offshore wind farms, bioenergy plants and innovative waste-to-energy solutions and provide smart energy products to its customers. Ørsted Wind Power's 2,450 employees have developed and constructed the largest portfolio of offshore wind farms in Northern Europe, and we're expanding with international activities in the US and Asia-Pacific.

In Taiwan, Ørsted develops and builds 1.8 GW of offshore wind projects and also storage solutions in Changhua; and co-owns Taiwan's first offshore wind project, Formosa 1.
