1. Basis of the Contract

- 1.1 This scheme is made under paragraph 8 of schedule 2B to the Gas Act 1986. The Act provides for customers supplied with Gas by a Gas Supplier without agreeing a contract to be deemed to have contracted with that Gas Supplier. This would usually be where a customer moves into new premises without agreeing a contract or when an existing contract comes to an end and the customer continues to consume Gas and does not move to another Gas Supplier.
- 1.2 This scheme comes into effect in January 2019 on the date it is posted on the Supplier Website. It replaces all previous schemes made by Orsted Sales (UK) Limited (the "**Supplier**"). The Terms and Conditions of this scheme are set out in this contract (the "**Deemed Contract**") and may be amended from time to time at the discretion of the Supplier.
- 1.3 This Deemed Contract will apply to each entity (the "**Customer**") which consumes Gas supplied by the Supplier (or has a Supply Point connected at which it is able to consume Gas) without having a contract in place with the Supplier. The scheme and Terms and Conditions which apply to a Customer will be the latest such version as is posted to the Supplier Website.
- 1.4 The Supplier agrees to supply Gas under the terms of this Deemed Contract and the Act and the Customer agrees to pay for the Gas supplied by the Supplier.
- 1.5 The Deemed Contract with a Customer starts on the date that the Supplier starts supply of Gas to the Customer and continues for each Supply Point until:
 - (a) the Customer enters into a formally binding contract for the supply of Gas to that Supply Point with the Supplier and the supply of Gas under that contract begins;
 - (b) the Customer enters into a new contract for that Supply Point with another Gas Supplier and the Supply Point is registered to that Gas Supplier;
 - (c) the Supply Point is permanently disconnected by removal of the Meter; or
 - (d) a new owner or occupier has assumed responsibility for the supply to the Premises at which the Supply Point is located.

2. Calculation of the Amount of Gas Used

- 2.1 The Supplier will base its calculation of the amount of Gas the Customer has used during a Supply Month on:

- (a) the Meter Reading that the Supplier receives from the Meter Reading Agency or Customer; or
- (b) where the Meter Reading is unavailable, or the Customer's reading is inconsistent with the Supplier's data, the Supplier will estimate the amount of Gas used.

- 2.2 If at any time the Supplier identifies an error in, or receives an update to, a Meter Reading or estimate of Gas consumption, it may send an invoice or credit note for the adjusted amount.
- 2.3 The Supplier will work out the amount of Gas supplied to a Supply Point by multiplying the daily (or deemed daily) metered volume at each Supply Point, corrected for temperature and pressure, by the calorific value as confirmed by the Gas Transporter for the area where the Supply Point is located. If this is not available the Supplier will use a value in line with the Gas (Calculation of Thermal Energy) Regulations 1996. The result will then be converted into an amount measured in kWh.
- 2.4 Ownership of the Gas will pass from the Supplier to the Customer at the outlet on the control valve at each of the Supply Points.
- 2.5 The Customer will pay for all Gas taken at each Supply Point irrespective of whether it is used by the Customer or anyone else.

3. Calculation of the Invoice Price

- 3.1 Gas supplied to each Supply Point shall be charged at the Deemed Rates available on the Supplier Website and on request, as may be updated from time to time at the discretion of the Supplier, and currently consist of:
 - (a) the Unit Price (in p/kWh); and
 - (b) the Standing Charge (in p/Day).

4. Unit Price and Standing Charge

- 4.1 The Unit Price and Standing Charge for each Supply Point include charges applicable to that Supply Point and payable by the Supplier to:
 - (a) the Distribution Network Operator and Gas Transporter for the transportation of Gas;
 - (b) the Meter Asset Manager for the installation, rental and maintenance of all metering and associated equipment;
 - (c) the Meter Reading Agency for the provision of meter reading and other services; and
 - (d) the Gas Transporter for the Unidentified Gas.
- 4.2 The Unit Price will be charged for each kWh of Gas taken at the Supply Point.

- 4.3 The Standing Charge will be made for each Day of the term of the Deemed Contract and will be charged whether or not any Gas is consumed.
- 4.4 If at any time the Supplier identifies an error in, or receives an update to, the Deemed Rates that have been invoiced or identifies an error in the information on which it based its Deemed Rates at the date of setting them, it may send an invoice or credit note for the adjusted amount. If the Customer is a Microbusiness, the Supplier will only adjust Deemed Rates to apply in the 12 months before such invoice or credit note.

5. Payment Terms

- 5.1 Each month, the Supplier will send the Customer an invoice for the Deemed Rates that apply to the Gas supplied in the previous Supply Month (a **"Monthly Invoice"**). The Supplier may invoice other amounts due under this Deemed Contract from time to time.
- 5.2 In addition to the Deemed Rate, the Customer must pay VAT, the Climate Change Levy and any other tax, duty or charge (together referred to as **"Taxes"** and each a **"Tax"**) applicable to the Customer's receipt of Gas. This will include any increase in a Tax, or any new Tax, introduced during the term of this Deemed Contract.
- 5.3 The Customer will pay the full undisputed amount of each Monthly Invoice and any other invoice so that the Customer's payment is received by the Supplier not later than 12 days from the invoice or the 20th day of the month on which the Monthly Invoice is sent, whichever is sooner.
- 5.4 The Customer must pay each invoice in pounds sterling to the bank account designated by the Supplier.
- 5.5 The Customer must make all payments under this Deemed Contract without taking off any amounts (for tax, set-off, counterclaim or any other purpose), unless the Customer has to do this by law.
- 5.6 If the Customer does not agree with any amount the Supplier has charged the Customer under this Deemed Contract, the Customer must pay the part of the invoice the Customer agrees with, and notify the Supplier of the details of the Customer's dispute within 30 days of the date of the invoice.

6. Preconditions for Supply

- 6.1 The Customer guarantees to the Supplier that the Gas supplied to each Supply Point under this Deemed Contract will only (or mainly) be used for non-domestic purposes.

7. Requirements relating to Supply Points

- 7.1 The Customer will make sure that all Gas taken passes through a Meter at each Supply Point.
- 7.2 The Customer must give the Supplier names or job titles, phone numbers and e-mail addresses that can be used to contact one of the Customer's employees (in working and non-working hours and on every day of the year), for the purposes described in Clause 12. The Customer must keep these contact details up to date.
- 7.3 The Customer must inform the Supplier if it has any Meter Bypasses or gas-boosting, compression or mixing equipment installed at any Supply Point and obtain the Supplier's consent before installing any such equipment (not to be unreasonably withheld).
- 7.4 The Customer must provide all information the Supplier reasonably requests about a Supply Point within a reasonable timescale.

8. Meter Installation and Maintenance

- 8.1 The Customer will co-operate with the Supplier by providing any reasonable information and help the Supplier may need so that they can supply and record Gas consumption at each Supply Point.
- 8.2 The Supplier will appoint and enter into contracts with a Meter Reading Agency and Meter Asset Manager in respect of each Supply Point unless the Customer has nominated them.
- 8.3 Any Meter Reading Agency or Meter Asset Manager nominated by the Customer must:
- (a) in the reasonable opinion of the Supplier, be qualified to carry out their duties; and
 - (b) have a contract in effect with the Customer.
- 8.4 If the conditions in Clause 8.3 are satisfied, the Supplier shall appoint the Meter Reading Agency or Meter Asset Manager nominated by the Customer. If not, or at any time the conditions cease to be satisfied, the Supplier may appoint and contract with a Meter Reading Agency or Meter Asset Manager. The Customer will be liable for any reasonable cost incurred by the Supplier as a result of the conditions in Clause 8.3 failing or ceasing to be satisfied.
- 8.5 Each Party will ensure that its Meter Asset Manager operates, maintain and renews its Meters in accordance with good industry practice and applicable Legal Requirements and Industry Codes.
- 8.6 The Customer shall be liable for the acts and omissions of its Meter Asset Manager and the Supplier shall not be liable to the Customer in respect of any breach of any of the Supplier's

obligations in this Deemed Contract, including its obligation to supply Gas to the Supply Points, if and to the extent that such breach was caused by any act or omission of a Meter Asset Manager contracted by the Customer.

- 8.7 The Customer must provide safe and clear access to each Meter at all reasonable times, and always between 8am and 5pm on any Business Day, so that the Gas Transporter, Distribution Network Operator, Meter Asset Manager, Meter Reading Agency, Supplier or any associated contractors can:
- (a) install, maintain, inspect, test, repair, replace, upgrade, disconnect, remove or shut down any part of the Meter;
 - (b) take any Meter Readings; or
 - (c) disconnect any Supply Point, if the Supplier, Distribution Network Operator or Gas Transporter have the right to do so.
- 8.8 The Supplier will comply with, and will make sure that its employees, agents and subcontractors comply with, any of the Customer's reasonable health, safety and security requirements relating to their Supply Points provided the Customer has given the Supplier advanced written notice of such requirements.
- 8.9 If the Customer does not provide safe and clear access to a Meter in line with Clause 8.7, the Customer must compensate the Supplier for any reasonable resulting costs that the Supplier incurs from any third party.
- 8.10 The Customer will provide suitable housing for the Meter to protect it and enable it to function. The Customer must regularly check each Meter for damage. If it has been damaged, mistreated or interfered with (by anyone other than the Supplier or its subcontractor), the Customer must:
- (a) tell the Supplier as soon as possible; and
 - (b) obtain a crime number from the police.
- 8.11 Other than as a result of the Supplier's negligence, if the Meter has been damaged, mistreated or interfered with, the Customer must compensate the Supplier for any reasonable costs that it incurs as a result.
- 8.12 If the Customer asks the Supplier to install, replace or upgrade any elements of a Meter, the Supplier may recover the pre-agreed costs of carrying out this work from the Customer. If the work leads to an increase in the costs the Supplier has to pay to deliver Gas to a Supply Point, the Supplier will be entitled to pass on the extra costs to the Customer.
- 8.13 The Customer will pay the Supplier any reasonable

costs incurred by the Supplier due to the disconnection or re-connection of any Supply Point.

9. Meter Accuracy

- 9.1 If either Party believes that a Meter is inaccurate they can request that it be removed, examined and checked for accuracy. If the request was made by the Customer and the equipment proves to be working within the levels of accuracy allowed in the Gas (Meters) Regulations 1983, or if the Meter Asset Manager is contracted to the Customer, the Customer will have to pay the reasonable costs for removing, examining and checking the equipment. The Supplier will pay these costs in all other cases.
- 9.2 If the Meter is found not to be working within the levels of accuracy allowed in the Gas (Meters) Regulations 1983, the Supplier will work out how much Gas was supplied in accordance with the Uniform Network Code and will send an invoice or credit note for the amount that was inaccurately metered. For the purposes of this calculation, unless the testing shows otherwise, the Supplier will assume that the Meter became inaccurate from the date on which the Meter was tested.

10. [NOT USED]

11. Supply Offtake Quantity and Supply Point Ratchet Charge

- 11.1 The Customer must not take Gas at a rate greater than the Supply Offtake Quantity or the Supply Hourly Quantity for any DM Supply Point.
- 11.2 The Customer must tell the Supplier with reasonable notice if it anticipates taking, or promptly if it has taken, more than the Supply Offtake Quantity for any of the DM Supply Points.
- 11.3 If the Customer is taking more than the relevant Supply Offtake Quantity or the Supply Hourly Quantity for any DM Supply Point the Supplier may need the Customer to reduce the amount the Customer takes from that Supply Point or to stop taking Gas completely. If the Customer fails to do so then, without affecting the Supplier's rights to take any other action, the Supplier may stop, suspend, reduce or limit the supply of Gas to the Customer by any quantity and for any period the Supplier considers appropriate. The Supplier will have no liability to the Customer as a result of doing this.
- 11.4 If the Customer ever breaches Clause 11.1 then for each such breach the Supplier may, without affecting any other remedies available to the Supplier under this Deemed Contract, at law or otherwise, invoice the Customer for a Supply Point Ratchet Charge.

11.5 Any Supply Point Ratchet Charge will be calculated according to the formula or methodology applicable under the Uniform Network Code.

11.6 If:

- (a) the Gas Transporter increases the Supply Offtake Quantity in respect of a DM Supply Point; or
- (b) the Customer takes more than the relevant Supply Offtake Quantity regardless of when this occurred and of whether a Supply Point Ratchet Charge was raised,

then the Supplier may increase the Supply Offtake Quantity for subsequent months by the amount of any increase made by the Gas Transporter or to the amount being taken when the breach occurred. The Supplier will pass through its additional costs to the Customer by amending the Deemed Rates that apply.

12. Supply Planning and Emergencies

12.1 Each Party must tell the other as soon as possible if it receives notice from a Gas Transporter of maintenance which may limit the amount of Gas the Customer can take at any Supply Point

12.2 The Network Emergency Coordinator, the Gas Transporter or the Supplier will tell the Customer, as soon as possible, when an emergency has begun and when it ends.

12.3 In an emergency, the Customer must immediately follow any instructions the Network Emergency Coordinator, Gas Transporter or Supplier gives the Customer to reduce the amount of Gas the Customer takes at any Supply Point or to stop taking Gas completely. The Gas Transporter and the Supplier will be entitled to take any action considered necessary to stop or limit the supply of Gas to any Supply Point. This will take priority over any of the Supplier's other responsibilities under this Deemed Contract.

12.4 If the Supplier receives a direction which prevents the Supplier from supplying Gas to a specific person, or limits the amount of Gas the Supplier can supply, for as long as the direction is in force:

- (a) the Supplier will be entitled to end or limit the Gas supply at any Supply Point; and
- (b) if instructed by the Supplier the Customer must immediately stop taking Gas completely, or limit the amount of Gas it takes.

12.5 If the Customer is entitled to compensation from the Gas Transporter or another organisation under these emergency conditions, the Supplier will take

all reasonable steps to support the Customer in claiming this compensation. The Customer will pay any reasonable costs that the Supplier incurs in doing this.

13. Failure to Supply, Priority and Interruptible Supply

13.1 The Supplier will not be failing its duty to supply Gas to a Supply Point if the Customer has to reduce the amount of Gas it takes at its Supply Points, or to stop taking Gas completely, because of:

- (a) actions taken, or instructions given, by the Gas Transporter or Distribution Network Operator;
- (b) the Meter Asset Manager, Meter Reading Agency, Supplier or any associated contractors installing, maintaining, inspecting, testing, repairing, replacing, or upgrading the Meter, while such works are being undertaken;
- (c) lawful disconnection of any part of the Supply Point
- (d) any part of the Meter failing or being faulty;
- (e) the Customer exceeding the Supply Offtake Quantity; or
- (f) the Pipeline System being maintained or an emergency existing.

13.2 The Supplier may arrange for the disconnection of the supply of gas to any Supply Point by giving the Customer notice in any of the following circumstances:

- (a) if in the Supplier's reasonable opinion, disconnection of the Supply Point is necessary to avoid danger or damage to any person or property;
- (b) to allow the Distribution Network Operator to inspect, maintain, repair or alter any part of the Pipeline System;
- (c) if any of the circumstances in Clause 17.2 or 17.3 (Ending this Contract) apply (whether or not this Deemed Contract is terminated);
- (d) if this Deemed Contract is terminated; or
- (e) if the Customer requests the Supplier to disconnect the Supply Point.

13.3 The Supplier will give the Customer no less than 20 Business Days' prior written notice of the disconnection of any Supply Point.

13.4 If the Supplier is told that any of the Supply Points meets the Priority Criteria, the Supplier will tell the Customer.

13.5 If the Customer considers that one of its Supply Points should have priority, the Customer must tell

the Supplier in writing as soon as possible and answer any reasonable questions the Supplier may ask to find out whether the Supply Point meets the Priority Criteria.

- 13.6 The Customer warrants that it has not been given notice that any of the Supply Points are to be designated by the Gas Transporter as Interruptible or, where already designated, are to cease to be so designated.

14. Force Majeure

- 14.1 Neither Party will be liable for failing to keep to any term of this Deemed Contract (other than a failure to make any payment) if this is caused by any event or set of circumstances which is outside the Party's reasonable control, including an act of God, fire, vandalism, IT breakdown, breakdown or damage to plant, strike, lockout, similar industrial dispute, war, terrorism or force majeure claimed by a party on which the affected Party relies to perform its obligations under this Deemed Contract. Lack of financial resources does not constitute circumstances outside of the Party's reasonable control.

- 14.2 The affected Party must notify the other promptly and no later than 30 days from the first day the event happened and take all reasonable steps to mitigate its effect.

15. Legal Responsibility

- 15.1 Nothing in this Deemed Contract, including the rest of this Clause 15, will exclude or limit either Party's liability for: (i) death or personal injury resulting from negligence or; (ii) fraud.
- 15.2 Each Party's liability to the other under this Deemed Contract for any loss, costs, expenses or damage, whether in contract, tort (including negligence and breach of statutory duty), statute or otherwise will not be more than £1 million for one event or series of connected events. This limit does not apply to the Customer's responsibility to pay the Deemed Rates.
- 15.3 The Supplier will only be liable to the Customer for a breach by the Supplier of this Deemed Contract to the extent the breach directly results in physical damage to the Customer's property and that that damage was reasonably foreseeable.
- 15.4 Unless expressly stated otherwise, neither the Customer nor the Supplier will have any liability to the other for loss of profit, loss of revenue, loss of use, loss of production, loss of contract, loss of goodwill, loss of or damage to reputation, loss of or damage to any software, data, or computer equipment, an increase to the cost of working, or for any consequential or indirect losses or

damages.

16. Changes in the Customer's Circumstances

- 16.1 In the following circumstances, the Supplier will notify the Customer of its concerns and give the Customer opportunity to discuss the situation within 7 days of the notice:
- (a) If the Supplier reasonably believes that the Customer may be unable to meet the Customer's obligations under the Deemed Contract; or
 - (b) if the financial circumstances of the Customer (or the Customer's parent company, ultimate parent company or guarantor) have deteriorated to a level unacceptable to the Supplier.
- 16.2 If after discussions with the Customer (or if the 7 days expire without response from the Customer), the Supplier still believes that reasonable grounds exist then it may: (i) give the Customer notice to provide suitable financial security for the Customer's payment obligations on the terms the Supplier requires; and (ii) apply such financial security to this Deemed Contract, to come into force the date the Supplier gives the Customer the notice.
- 16.3 If the Customer does not provide the financial security the Supplier asks for within 30 days of receiving the Supplier's notice requiring the financial security, the Supplier may disconnect the Supply Points and/or give the Customer notice to end this Deemed Contract immediately.

17. Ending this Contract

- 17.1 This Deemed Contract will terminate in respect of each Supply Point in accordance with Clause 1.5. If all Supply Points are no longer subject to this Deemed Contract in accordance with Clause 1.5 then this Deemed Contract will terminate. No termination fee will apply in respect of such termination, though a charge may apply under Clause 8.13 for any costs incurred in disconnecting a Supply Point.
- 17.2 A Party ("Party A") can end this Deemed Contract immediately by giving written notice to the other Party ("Party B") at any time, in the following circumstances:
- (a) if Party B materially breaches Party B's obligations under this Deemed Contract and, if it is capable of remedy, it is not remedied to the reasonable satisfaction of Party A within 30 Business Days of the written notice.
 - (b) if Party B cannot pay their debts (as defined in section 123 (1) of the Insolvency Act 1986), if they are asked to consider entering into a

voluntary arrangement under section 1 of that act, or if they enter into any scheme of arrangement (other than for the purpose of merging, restructuring or amalgamating their organisation);

- (c) if a receiver or administrative receiver (as defined in section 251 of the Insolvency Act 1986) is appointed to handle all or part of Party B's assets or business;
 - (d) if an administration order is passed, under section 8 of the Insolvency Act 1986, in relation to Party B's business;
 - (e) if Party B passes any resolution for winding up their business (other than for the purpose of merging, restructuring or amalgamating their organisation);
 - (f) if a court passes an order to wind up Party B's business; or
 - (g) if the equivalent to an event in (b) to (f) occurs under the laws of another jurisdiction.
- 17.3 Without affecting any other rights the Supplier may have under this Deemed Contract, at law or otherwise, the Supplier can choose to end this Deemed Contract immediately if:
- (a) the Supplier notifies the Customer that it has failed to make any payment due to the Supplier in line with this Deemed Contract and the Customer fails to pay such amount within 5 Business Days of the notice;
 - (b) the Customer no longer owns, uses or occupies all of the premises where the Supply Points are based; or
 - (c) the Supplier is no longer able to supply Gas to the Customer in line with the terms of the Supplier's Supply Licence.
- 17.4 This Deemed Contract will end immediately if another Gas Supplier is appointed by Ofgem as a supplier of last resort to take over responsibility for the Supply Points.
- 17.5 The following Clauses will continue to have effect after this Deemed Contract has ended: Clause 1.4 (Basis of the Contract), Clause 2.2 (Calculation of the Amount of Gas Used), Clause 4 (Unit Price and Standing Charge), Clause 12 (Supply Planning and Emergencies), Clause 15 (Legal Responsibility), Clause 19 (Information, Confidentiality and Data Protection), Clause 20 (Notices), Clause 21 (Disputes, Governing Law and Jurisdiction), Clause 23 (Miscellaneous), Clause 24 (Interpretation).
- 17.6 Ending this Deemed Contract will not affect any rights or obligations under this Deemed Contract that were to be carried out before this Deemed

Contract ended.

18. Transfer of Rights and Obligations

- 18.1 The Customer must not transfer or sub-contract the Customer's rights or responsibilities under this Deemed Contract without the Supplier's consent in writing.
- 18.2 The Supplier can transfer or sub-contract the Supplier's rights and responsibilities under this Deemed Contract without the Customer's consent.

19. Information, Confidentiality and Data Protection

- 19.1 Each Party agrees to keep the terms of this Deemed Contract, and confidential information it receives from the other Party, confidential and not to share the information with anyone else while this Deemed Contract is in force or for three years after it has ended. Either Party may disclose information:
- (a) if required by a Legal Requirement or Industry Code;
 - (b) to Affiliates, professional advisers, agents, equity investors or debt funders so long as they are bound by equivalent obligations of confidentiality;
 - (c) which is already generally available and in the public domain otherwise than as a breach of this Clause; or
 - (d) with previous written consent of the other.
- 19.2 The Supplier may disclose the Customer's information:
- (a) to a credit-reference agency, debt collection agency, credit insurer or to a third party detecting theft of gas; or
 - (b) to any new Gas Supplier of the Customer.

- 19.3 The Customer must give the Supplier all the help and information the Supplier (or the Supplier's agents) reasonably need to keep to any Legal Requirement or any other contract, authorisation or Industry Code required in connection with the supply of Gas.

- 19.4 The Customer is liable for the Supplier's reasonable costs and losses if any information the Customer provides is incorrect, incomplete or not supplied on time.

- 19.5 The manner in which the Supplier or its Affiliates process personal data is set out in the privacy policy on the Supplier Website, which the Customer will tell its employees and contractors.

20. Notices

- 20.1 Any notice a Party gives under this Deemed Contract must be in writing and delivered by hand,

first-class post, registered post, recorded delivery or email. The addresses for delivery, unless the Supplier or the Customer notify a replacement address, are:

Post: the Customer and the Supplier's registered addresses.

Email: such email as each Party notifies to the other for such purposes.

21. Disputes, Governing Law and Jurisdiction

- 21.1 If the Customer is not satisfied with the service the Customer has received, the Customer may use the complaints process on the Supplier Website.
- 21.2 This Deemed Contract and any non-contractual obligations arising from or connected with it shall be construed and governed in accordance with English Law. The Parties agree that the Courts of England and Wales shall have exclusive jurisdiction.

22. Amendments

- 22.1 The Supplier may amend this Deemed Contract in accordance with Clauses 1.2 and 1.3 and the Deemed Rates in accordance with Clause 3.1. The Customer may not amend this Deemed Contract or the Deemed Rates.

23. Miscellaneous

- 23.1 This Deemed Contract is the entire agreement between the Parties and replaces all previous spoken or written contracts, negotiations, representations and understandings between the Parties, relating to its subject matter. The Parties agree that they shall have no remedies in respect of any statement, representation, or promise (whether made innocently or negligently) that is not set out in this Deemed Contract.
- 23.2 If any term (or part of any term) of this Deemed Contract becomes illegal, can no longer be enforced, or is no longer valid, this will not affect the rest of this Deemed Contract, which will continue in full force.
- 23.3 A waiver of any right or remedy under this Deemed Contract or by law is only effective if given in writing and will not be deemed a waiver of any subsequent breach or default.
- 23.4 No delay or failure by either Party to exercise any right or remedy, or single or partial exercise by either Party of the right or remedy, will prevent the Party exercising the right or remedy in full in future.
- 23.5 The operation of the Contracts (Rights of Third Parties) Act 1999 is excluded.

24. Interpretation

- 24.1 The definitions shown in the document "Gas

Definitions Version 4.0" made available on the Supplier Website and on request will apply to this Deemed Contract, except that the following definition will apply in place of the definition set out in that document:

"Supply Point" means each point of connection which is subject to this Deemed Contract, at which the supply of Gas may flow from the Pipeline System to the Premises.

- 24.2 References within these Terms and Conditions to a "Clause" are, unless stated otherwise, to a Clause of these Terms and Conditions.
- 24.3 Clause headings in this Deemed Contract are for ease of reference only and shall not be taken into account when interpreting this Deemed Contract.
- 24.4 Reference to a statute or statutory provision is a reference to it as amended or re-enacted from time to time and includes all subordinate legislation.
- 24.5 Reference to an Industry Code, licence or any of the documents constituting the Deemed Contract means such document as amended and in force from to time.
- 24.6 The word "including" when used in this Deemed Contract will be construed without limitation.
- 24.7 References to "costs" includes costs, charges, expenses, losses, damage and liabilities, including professional and legal costs.
- 24.8 Unless specified otherwise, any reference in this Deemed Contract to (i) a "day" shall mean a calendar day (ii) a "month" shall mean a calendar month; and (iii) a time of day shall mean London time.
