

New England Survey Activity

Mariners Briefing

Date of Notice: May 14, 2019

Notice No. 008

Overview

These briefings are intended to update mariners on marine operations for the Bay State Wind survey activities. Survey operations are planned for locations throughout the lease area (see chart) and are expected to last several months. These operations involve only the survey phase of the projects.

Mariners briefings are submitted as needed to the U.S. Coast Guard and distributed to the fishing community and interested mariners on our website at: us.orsted.com/mariners or via email upon request through Rodney Avila (RODAV@orsted.com).

Vessels will designate a working channel on VHF 16 daily at 0600 and 1800

About the Wind Farm

Bay State Wind (BSW), a 50-50 joint venture between Ørsted and Eversource, is a planned offshore wind farm located 14 miles south of Martha's Vineyard. BSW will contain an offshore substation, and a subsea transmission system able to deliver clean energy to the New England electrical grid.

Ongoing Survey Activities

- Projected Beginning: April 2019
- Projected End: July 2019
