

# DONG ENERGY SUPPORTS THE UN GLOBAL COMPACT

In DONG Energy we believe that developing our business in a sustainable direction is the best way to operate our business. We believe that it creates the most long term value for our owners and the societies we are a part of. That is why we are committed to continuously advance the UN Global Compact principles on respect for the environment, human rights, labour rights and anti-corruption.

This document shows where in our 2014 sustainability report 'DONG Energy in society' and supplementary fact sheets you can find examples of how we work to promote the principles of the UN Global Compact.

You will find the report and the fact sheets and our sustainability performance data for 2014 at:

**THE UN GLOBAL COMPACT**

DONG Energy has been a participant of the UN Global Compact since 2006 and is a member of the Nordic Global Compact Network. In addition, we are engaged in a number of initiatives and fora, through which we work to address the sustainability issues that are of utmost importance to both our stakeholders and our business and to promote Global Compact's principles more generally.

**THESE INCLUDE:**

- Caring for Climate
- Bettercoal
- Sustainable Biomass Partnership
- Danish Initiative for Ethical Trade
- Maritime Anti-Corruption Network (MACN)
- Businesses for Social Responsibility (BSR)
- The Extractive Industries Transparency Initiative (EITI)
- The World Bank led coalition 'Putting a Price on Carbon'
