

Legend

- Proposed Turbine Layout
- ⊠ Existing Bottlehill Landfill Site
- Wind Energy Constraints Boundary
- Indicative Grid Connection Route

**Drawing Notes**  
-This drawing is intended for consultation purposes only.  
-The infrastructure layout shown has been developed as a preliminary general arrangement for the purposes of consultation and environmental assessments and is subject to change.  
-The Wind Energy Constraints Boundary shown identifies areas within the development area which are under consideration for wind energy following studies and surveys carried out to date and does not represent a final development boundary required for planning application purposes.  
-Total number of wind turbines shown = 27.  
-Maximum wind turbine tip height = 169m.
