Re: Activity in Wainscott Beach Parking Lot June 22-23

Dear Wainscott CAC Members,

I hope this note finds you all well – healthy and safe.

I am writing on behalf of the project team to inform you about activity that will be taking place in the parking lot at the end of Beach Lane on **Monday and Tuesday, June 22 and 23**. Please know that **beach access will be maintained at all times** during this activity, a description of which is as follows:

- A single geotechnical boring will be taken using a truck-mounted rig.
- A work zone will be established with tape and barrels in the southwest corner of the parking lot; all drilling and drilling support equipment will be contained within the work zone, on the paved surface.
- Drilling activity may take place between 7:00am and 7:00pm, pursuant to East Hampton Town code and the license agreement which authorizes this work.
- The drilling equipment will be secured and left onsite overnight.
- Following work completion on Tuesday, all equipment will be removed and the bore hole grouted and patched.
- A piping plover monitor will be onsite during drilling activity.

All members of the onsite team will be following guidelines set forth by New York State for COVID-19 prevention and will be wearing appropriate personal protection gear in addition to traditional health and safety gear.

If you have questions about this activity, please email jegar@orsted.com or call 631-267-5777. Additional project information is available at <https://southforkwind.com/resources-and-faqs>.

Please know our team intended to complete this activity earlier this year, but COVID-19 restrictions required that we re-schedule. We appreciate the Town Board's support for allowing us to proceed with this brief activity, and aim to complete the work quickly and safely.

Best regards,

Jennifer Garvey
South Fork Wind Team
