Energy Marine™  
A DOMINION ENERGY COMPANY

# Scope Description

## New York Business Opportunities

Blue Ocean Energy Marine (A Dominion Energy Company) are in the process of constructing the first Jones Act Compliant Wind Turbine Installation Vessel (WTIV) named Charybdis.

Charybdis will be used to transport and install the wind turbines for the Sunrise Wind Project.

Charybdis will be operating out of the New London State Pier and the following quayside and land based services will be required;

- Fuel
- Water
- Port agents
- Oils and lubes
- Special survey suppliers
- Providers for critical components such as cranes and life saving equipment
- Complex engineering
- Diving services
- Suppliers of spare parts
- Medical supplies

We will also require services for crew change facilities such as hotels and transportation.

# Supplier Requirement New York Business Opportunities

In order to qualify for the official vendors list, the following company data will be required to allow Blue Ocean Energy Marine to make the correct supplier assessments;

- Supplier Details / Product Range
- Infrastructure/ Facilities
- Management and work force structure
- Quality Assurance Accreditation
- HSE Accreditation
- Corporate Ownership Structure
- Financials
- Warranty/ After sale agreements
- Track Record

# Procurement Process New York Business Opportunities

Further information on the procurement process will be issued once a company has been approved onto the official vendor list.

In order to qualify for the vendors list, interested New York companies can contact,
