## **1.1 Introduction to the Book of Reference and Land Plans**

- 1.1.1 This document is a Book of Reference ("BoR") and accompanies the application for the proposed Hornsea Project Three Offshore Wind Farm Order (the "Order") under the Planning Act 2008 ("PA 2008").
- 1.1.2 This document comprises part of the application documents for the Order as required by Regulation 5(2)(d) of the Infrastructure Planning (Applications: Prescribed Forms and Procedure) Regulations 2009 ("APFP Regulations").
- 1.1.3 The BoR is to be read in conjunction with Land Plan - Onshore (Application Document Reference A2.3) ("Land Plans") submitted under regulation 5(2)(i) of the APFP Regulations. The land plans identify:
  - a. all of the land extended beyond the land shown on the land plans required for and affected by the authorised development;
  - b. parts of that land which may be acquired permanently under the compulsory acquisition powers within the Order limits;
  - c. land that will be subject to powers to acquire permanent rights and impose restrictions;
  - d. land which will not be acquired but where only temporary use powers may be exercised; and
  - e. land in relation to which it is proposed to extinguish, suspend or interfere with any existing easements, servitudes and other private rights.
- 1.1.4 A separate set of Special Category Land – Onshore plans (Application Document Reference A2.11.2) are submitted which identify special category land in addition to Crown Plans – Onshore and Offshore (Application Document Reference A2.11.1) as required by regulation 5(2)(i) and 5(2)(n).

## **1.2 Book of Reference and Land Plans**

- 1.2.1 The Book of Reference (BoR) is divided into five Parts as prescribed by Regulation 7(1) of the APFP Regulations.
- 1.2.2 Each of the five Parts is summarised below, together with a brief commentary on how the requirements in the regulations have been interpreted and applied to the collation of each part of the BoR for Hornsea Project Three Offshore Wind Farm ("Hornsea Three").
- 1.2.3 The Order land is identified by numbered entries on the land plans and in the Book of Reference. Each plot is numbered uniquely so that the prefix of the plot number relates to the land plan sheet number on which the plot appears.
- 1.2.4 All plot area measurements in the BoR are approximate, as these measurements are given in square metres, and each measurement is rounded up to the nearest whole square metre.

- 1.2.5 Each plot is coloured on the land plans. The colour of the plot serves to provide an indication of the purpose for which the land in that plot is required:
- a. **Pink plots:** Order land - Freehold to be compulsorily acquired and temporary use of land and in relation to which it is proposed to extinguish easements, servitudes and other private rights
  - b. **Blue plots:** Order Land – New Connection Works Rights (including restrictions) to be compulsorily acquired and temporary use of land and in relation to which it is proposed to suspend or extinguish easements, servitudes and other private rights and temporary use of land
  - c. **Green plots:** Order Land – New Landscaping Rights (including restrictions) to be compulsorily acquired and temporary use of the land and in relation to which it is proposed to suspend or extinguish easements, servitudes and other private rights
  - d. **Blue and green hatched plots:** Order Land – New Connection Works Rights and Landscaping Rights (including restrictions) to be compulsorily acquired and temporary use of the land and in relation to which it is proposed to suspend or extinguish easements, servitudes and other private rights
  - e. **Brown plots:** Order Land – New Access Rights (which comprises either New Connection and Operation Access Rights or New Construction and maintenance Access Rights as specified in the Book of Reference) (including restrictions) to be compulsorily acquired and temporary use of the land and in relation to which it is proposed to suspend or extinguish easements, servitudes and other private rights
  - f. **Brown and blue hatched plots:** Order Land – New Connection Works Rights and Access Rights (including restrictions) to be compulsorily acquired and temporary use of the land and in relation to which it is proposed to suspend or extinguish easements, servitudes and other private rights
  - g. **Yellow plots:** Order Land - Temporary use of land and in relation to which it is proposed to temporarily suspend easements, servitudes and other private rights

## 1.3 Part 1 of the Book of Reference

1.3.1 Part 1 of the BoR is described in Regulation 7(1)(a) as follows:

- 1.3.2 “...*Part 1 contains the names and addresses for service of each person within Categories 1 and 2 as set out in section 57 (categories for purposes of section 56(2)(d)) in respect of any land which it is proposed shall be subject to—*
- i powers of compulsory acquisition;
  - ii rights to use land, including the right to attach brackets or other equipment to buildings; or

iii rights to carry out protective works to buildings..”

- 1.3.3 Category 1 persons are defined within section 57 of the Planning Act 2008 as those who own, lease, hold a tenancy in relation to or occupy land within the Order limits.
- 1.3.4 Category 2 persons are those who have an interest in land within the Order limits or have the power to sell and convey or to release such land.
- 1.3.5 Part 1 of the BoR contains the names and addresses of each person within Category 1 and 2.

## **1.4 Part 2 of the Book of Reference**

- 1.4.1 Part 2 of the BoR is described in Regulation 7(1)(b) as follows:  
*“...Part 2 contains the names and addresses for service of each person within Categories 3 as set out in section 57;”*
- 1.4.2 Category 3 persons are defined as those who would or might be entitled to make a ‘relevant claim’ (being a claim under section 10 of the Compulsory Purchase Act 1965 and / or under Part 1 of the Land Compensation Act 1973 and / or under section 152(3) of the Planning Act 2008) as a result of the implementation of the Development Consent Order, as a result of that order having been implemented, or as a result of the use of the land once that order had been implemented.
- 1.4.3 It is considered that Category 3 contains parties with legal rights (or easements) over the land within the Order land. Category 3 also contains persons with interests in land outside the Order land who, it is considered, might be able to make a relevant claim (as defined above).
- 1.4.4 Part 2a of the BoR contains the names and addresses of all those Category 3 persons with interests in land within the Order land, who it is considered might be able to make a relevant claim. For each plot, a description of the land and its approximate area are provided. Part 2b contains the names and addresses of all those Category 3 persons with interests in land outside the Order land who, it is considered, might be able to make a relevant claim (as defined above).
- 1.4.5 Part 2 of the BoR has been divided into two parts (Parts 2a and 2b) to aid clarity of presentation. As Part 2a contains Category 3 persons with interests in land within the Order land, it necessarily includes information about plot numbers and plot descriptions. As there is no equivalent information on plots for Category 3 persons with land outside the Order land, the Applicant has structured the part of the BoR that deals with such persons differently. To make this distinction clear, Part 2 of the BoR is split into two parts - Parts 2a and 2b.
- 1.4.6 Part 2b of the BoR contains Category 3 persons’ names and addresses for service and identifies the land to which a relevant claim might relate. Where a separate address for service is not specified the address for service is the same as the address to which a relevant claim might relate.

## **1.5 Part 3 of the Book of Reference**

1.5.1 Part 3 of the BoR is described in Regulation 7(1)(c) as follows:-

*“...Part 3 contains the names of all those entitled to enjoy easements or other private rights over land (including private rights of navigation over water) which it is proposed shall be extinguished, suspended or interfered with..”*

1.5.2 Part 3 of the BoR contains the names of all those persons who it is considered will have their private rights over land affected by the scheme.

1.5.3 Certain relevant persons included within Part 1 of the BoR have also been included within Part 3 where their rights may be considered to be affected. Examples include statutory undertakers with services in or under the land, and whose rights over the land are likely to be affected whether the land is required permanently or temporarily

## **1.6 Part 4 of the Book of Reference**

1.6.1 Part 4 of the BoR is described in Regulation 7(1)(d) as follows:-

*“...Part 4 specifies the owner of any Crown interest in the land which is proposed to be used for the purposes of the order for which application is being made;”*

1.6.2 Where Crown interests in land have been identified, these are listed in Part 4, and the relevant plots are also shown on the Special Category land and Crown Plans – Onshore (Application Document Reference A2.11.1) to signify that it is Crown land.

## **1.7 Part 5 of the Book of Reference**

1.7.1 In accordance with Regulation 7(1)(e) of the APFP Regulations, Part 5 identifies land:

(i) the acquisition of which is subject to Special Parliamentary Procedure under particular circumstances;

ii) which is Special Category Land (meaning land which forms all or part of a common, open space, National Trust land held inalienably and fuel and field garden allotments); and

(iii) which is replacement land.

(iv) and for each plot of such land within which it is intended that all or part of the proposed development and works shall be carried out, the area in square metres of that plot.

1.7.2 The location of any land which is Special Category Land to be used either permanently or temporarily is shown on Special Category Land – Onshore plans (Application Document Reference A2.11.2) and noted within Part 5 of the BoR.

## 1.8 Rights classes

1.8.1 The second column in Part 1 of the Book of Reference records the rights and restrictions required over each plot in the context of the rights classes in the table below.
