Mid-Atlantic Survey Activity Mariners Briefing

Date of notice: July 27, 2020 Notice no. 061

Overview

These briefings are intended to update mariners on marine operations for the Mid-Atlantic survey activities. Survey operations are planned for locations throughout the lease area (see chart) and are expected to last several months. These operations involve only the survey phase of the projects.

Mariners briefings are submitted as needed to the U.S. Coast Guard and distributed to the fishing community and interested mariners on our website at: <u>us.orsted.com/mariners</u> or via email upon request through Rodney Avila (RODAV@orsted.com).

Vessels will designate a working channel on VHF 16 daily at 0600 and 1800

About the wind farms

Ocean Wind (OCW), with the support of PSEG, is a planned offshore wind farm located 15 miles off the New Jersey coast. OCW will contain an offshore substation and a subsea transmission system able to deliver clean energy to the New Jersey electrical grid.

Ongoing OCW survey activities

- Projected Beginning: April 2019
- Projected End: September 2020
