- The contractor continued excavating for conduit between Circuit Drive and Camp Ave.
- The contractor is simultaneously backfilling and restoring excavated areas as they progress.

New Interconnection Station & Substation off Camp Avenue

- The contractor continued the King Piledriving activity.

Upcoming Activities

Week of March 18, 2024

Quonset Development Corporation (along Circuit Drive, Whitecap Drive, and Burlingham Avenue)

- The contractor intends to continue excavation for the underground duct-bank. This work will be located between Circuit Drive and Camp Avenue. The contractor is simultaneously backfilling and restoring excavated as they progress.
- The contractor will be mobilizing outside the Blue Beach parking lot for duct bank excavation on Monday, March 18th. This will require a road closure at this section of Circuit Drive. Please utilize the closer street, Burlingham Ave or Circuit Drive, to access your business.

New Interconnection Station & Substation off Camp Avenue

- The contractor will continue the King Pile Wall installation and begin Pipe Piling. Please note, these installations will cause vibrations and some noise as the piles are hammered into the ground. Crews will continue to enter and exit the site with increased regularity.

Week of March 25, 2024:

Quonset Development Corporation (along Circuit Drive, Whitecap Drive, and Burlingham Avenue)

- Crews will be continuing the duct-bank excavation work between Circuit Dr and Camp Ave.

New Interconnection Station & Substation off Camp Avenue

- The contractor will be continuing the King & Pipe Pile installation at the substation property on Camp Avenue.
