

2.6.2024

Dear Neighbor,

Construction of the Revolution Wind project (the Project) is continuing in your area, located in the Town of North Kingstown. The Project is being constructed by Eversource & Ørsted and its contractors and subcontractors. Crews will be continuing with the second phase of onshore construction for the Project. The route is roughly one mile-long and is within the Quonset Business Park. The Project will build a new substation which will interconnect to the existing Davisville substation.

On Wednesday, February 21st, the Revolution Wind Team will be holding an onshore construction public open house for the North Kingstown and Quonset communities and businesses at the North Kingstown Town Hall. You are invited to attend this event to learn about the project and ask questions to our subject matter experts. This open house will run from 6:00 PM to 7:30 PM. We encourage all those who want to attend to arrive at 6:00 PM in order to personally interact with the project team. This will be an informal Q&A session. Light refreshments will be provided.

We hope you can join us at the event, but if you can't make it, please don't hesitate to reach out with any questions or concerns you may have! See our contact information below.

Open House Details

- Location:
 - The open house will be held at the North Kingstown Town Hall, 80 Boston Neck Road, North Kingstown, Rhode Island. Signs will be posted to help with parking and room location.
- Hours:
 - The open house will be starting at approximately 6:00 PM and last until 7:30 PM
 - The open house will be structured around an informal Q&A session with subject matter experts
- Other Information:
 1. Light refreshments will be provided to all who attend
 2. Subject matter experts will be present to answer any and all questions related to construction activities, environmental practices, and restoration processes
 3. Visual aids and illustrations will be present throughout the room
