Week of October 23, 2023:

Quonset Development Corporation (along Circuit Drive, Whitecap Drive, and Burlingham Avenue)

- The contractor continued the HDD setup and completed the western conduit pull-in.
- The contractor began saw-cutting and excavating for the underground duct-bank installation (Circuit Dr. - from Burlingham Ave to White Cap Drive)

New Interconnection Station & Substation off Camp Avenue

- The contractor completed the Callahan Laydown Yard setup

Upcoming Activities

Week of October 30, 2023:

Quonset Development Corporation (along Circuit Drive, Whitecap Drive, and Burlingham Avenue)

- The contractor will continue excavation for the underground duct-bank (Circuit Dr - from from Burlingham Ave to White Cap Drive), traffic detours will be in place for this work.
- The contractor will continue with offshore vessel activity including dredging, surveying, and HDPE cable towing
- The contractor will begin extracting the steel casing from the HDD landfall site mid-week. This work will involve hammering the steel casing out of it's current position, which will lead to some noise and vibrations

New Interconnection Station & Substation off Camp Avenue

The contractor will continue conducting hand-dug archaeological excavation work.

The contractor will begin installing a permanent fence around the Callahan Laydown Yard.

Week of October 30, 2023:

Quonset Development Corporation (along Circuit Drive, Whitecap Drive, and Burlingham Avenue)

- The contractor intends to continue trenching and conduit installation (Circuit Dr. - from Burlingham Ave to White Cap Drive), this work involves the use of a traffic detour

New Interconnection Station & Substation off Camp Avenue

- The contractor will continue the minor archaeological excavation
