

Notice - South Fork Wind Commencing Activities in New York State Waters.

South Fork Wind intends to install a temporary metocean wave buoy with a single mooring anchor in position 40-55-04.24 N 072-14-04.819 W. The buoy will be set on or about 10/19/2022 and removed on or about 04/30/2023. The purpose of this wave buoy is to provide real-time sea conditions to inform activities in the area.

Work to begin efforts at South Fork Wind’s cable landfall area will be conducted in a box bounded by positions 40- 55 24.2N 072-14-22.812W, 40-55-43.2114N 072-13-41.844W, 40-55-02.7114N 072-14-5.28W, 40-55-21.9N 072-13-24.312W, (see chart below), approximately 1500 yards off Beach Lane, East Hampton, NY. The jack up vessel Lift Boat JILL, attended by support vessels, to include the Seacor BRAVE, will be on scene from as early as 11/01/2022 to as late as 02/28/2023.

Vessels will be available on VHF FM 16 and 13. Mariners are advised to use caution when transiting the area.

Detailed information is also contained in the USCG Local Notice to Mariners Local Notices to Mariners by CG District | Navigation Center (uscg.gov) and Ørsted’s Mariners Briefs (<https://us.ørsted.com/renewable-energy-solutions/offshore-wind/mariners>)
