

Property Boundary Surveys

Purpose

South Fork Wind will be conducting a property boundary survey to confirm Right-of-Way limits at each LIRR road crossing along the onshore cable route.

To acquire this data, surveyors will be visiting each location to take measurements and identifying the true property boundaries.

Work will be performed by a two person survey crew with two vehicles. Typical Land Survey equipment will be used, including a tripod, GPS units, metal detectors, shovels and bright colored flagging.

While no work is planned on private property, our surveyors may cross adjacent properties to access their monuments.

This survey will commence under NY Statute § 9-105 Right of entry for professional land surveyor performing surveying services.

Temporary flags or other markers may be used.

Timeline & Location

→ TOWN ROAD CROSSINGS

8 locations are anticipated to be surveyed within the Town-owned Right-of-Way at the Long Island Rail Road (LIRR) corridor intersection of the following roads: Daniels Hole Road, Wainscott Northwest Road, Stephen Hands Path and Buckskill Road.

Timeline: Beginning as early as March 1, 2021, lasting approximately two weeks.

All work will be conducted Monday through Friday between 7:00 a.m. and 7:00 p.m.
